LBBC criticism of President Trump's Executive Order on immigration

Donald Trump is making many deplorable mistakes. The Libyan British Business Council condemns this truly grave error, disrupting the lives of so many innocents. The dignified Libyan people deserve our loyal help as they work to rebuild their country. As the US closes its doors, the UK must open ours wider to welcome as friends Libyan business visitors, students, tourists and those needing medical care. This crass US misjudgment will serve only to strengthen still further Libyan / British cooperation, to mutual benefit.
